

Why Are There So Many Illegal Immigrants?

The reason is NOT what the good people who support ICE think it is. It is NOT this:

“The illegal immigrants are essentially freeloaders who think it’s fine to break our laws (like jerks who “cut in line”) to enter the United States to enjoy the higher standard of living we Americans have worked to create, instead of doing the work themselves required to make their own nations have a high standard of living.”

The TRUTH is this:

The US ruling billionaire class (both political parties) has been doing things for decades south of the border and in Haiti DELIBERATELY to force poor people there to have to enter the United States illegally **just in order to survive**. Scan the QR code below to read the proof of this and watch a video about Hondurans, for example, fleeing for their very lives to the United States:
